

# 2021 MEMBERSHIP PACKAGES

## Environment360 powered by Evolve!

Environment360's mission is to create indigenous circular economies through inclusive waste collection systems, which empower informal-sector *wastepickers*, especially women, and introduce them into the value chain. Environment360 fosters strong relationships between value chain stakeholders, private organizations and local and national governments to ensure the development of innovative closed loop systems that can be replicated throughout Africa.

## OPERATIONAL SPHERES

We design programs *with* our communities and *not for* them. Through tailored training and support, our organization has supported the collection of more than 300 MT of plastic and nearly 400 MT of paper.

### HUMAN CENTERED DESIGN

### INTEGRATED APPROACH

We create circular economies by working with a variety of stakeholders along the value chain to increase the economic and environmental impact. Our collection schemes improve waste pickers incomes and a cleaner environment for you!

### COLLECTION AT SOURCE

According to the World Bank, 80% of marine litter comes from land based sources. Environment360 works with communities to capture recyclable materials before they make their way into our landfills and oceans.

# COMMUNITY MEMBERSHIP

**Ally**  
5,800 GHC

Green Evolution Certificate  
Weekly pick-up: plastic and paper  
*Community provides its own containers*

**Change Maker**  
11,000 GHC

Green Evolution Certificate  
Weekly pick-up: plastic and paper  
Feature in monthly E360 Newsletter

**Evolved Champion**  
14,500 GHC

Green Champion Certificate  
Weekly pick-up: plastic and paper  
Feature in monthly E360 Newsletter  
Social media posts

# CORPORATE MEMBERSHIP

**Ally**  
12,000 GHC

Green Evolution Certificate  
Free staff and janitorial training  
Weekly collection: plastic and paper  
Segregated Recycling Containers  
Feature in monthly E360 Newsletter/ social media

**Change Maker**  
18,000 GHC

Green Evolution Certificate  
Free staff and janitorial training  
Weekly collection: plastic and paper  
Segregated Recycling Containers  
Feature in monthly E360 Newsletter/ social media

**Evolved Champion**  
23,000 GHC

Green Evolution Champion Certificate  
Free staff and janitorial training  
Twice weekly collection: plastic and paper  
Segregated Recycling Containers  
Quarterly Green Evolution Reports  
Feature in monthly E360 Newsletter/ social media  
Company branding on educational materials  
Tailored corporate eco-volunteer opportunities

# YOUR MEMBERSHIP DONATION POWERS...

## **E360 Circular Innovation Hub**

The Hub moves female waste pickers from urban collectors to formalised innovators within a circular economy. The initiative empowers female socio-economic participation, and independence through transformative gender-sensitive *Technology Adaption and Ownership*. By providing intensive trainings, female wasterpreneurs learn soft and hard skills necessary to break through entrepreneurial barriers. The Circular Innovation Hub promotes plastic waste as opportunity rather than pollution by introducing recycled plastic products into a profitable local and international value chain.

## **Informal Sector Livelihood Security**

E360 increases the capacity and stability of informal waste plastic collectors through trainings, developed collection schemes, and fair-trade buy back schemes.

## **Educational Campaigns**

E360 supports school's Green awareness programs through tailored recycling, composting, educational materials and curriculums, and motivational awards. E360 has sensitized 70,000 students at 63 schools and collected 100 tons...thanks to you!

## *What you need to know...*

### **How often are pick-ups?**

Based on your membership package, you will receive waste analysis to determine your needs to schedule appropriate times

### **Where do you service?**

Pick-ups are available in the greater Accra Region. We do not service Teshie, Weija, and Nsawam.

### **Where does the waste go?**

Flexible and hard plastics are sold on the local market. PET is sold to a third party who exports to Germany. Paper is sold locally and made into toilet tissue and egg crates.

### **What is collected?**

All types of paper and plastic! Recyclables must be clean and free from oil, food and dirt. Stained material may be rejected.

### **How much are annual membership dues?**

Pay the assigned initiation fee and just 500 GHC annually for continued service.

Your Environment360 membership powers the *green cycle*. Thank you for contributing to Ghana's eco-health. Our partners include AMA Solid Waste Division, and the Ministry of Local Government and Rural Development.
